

SAKAI FINANCIAL SERVICES

A PROGRAM BY ENGS COMMERCIAL FINANCE CO.

RAISE YOUR BOTTOM LINE BY FINANCING YOUR SAKAI ROLLER

- 85% of all commercial equipment is financed. Why? Because financing improves cash flow and raises the bottom line.
- All the same depreciation benefits that accrue to an outright purchase apply to a finance purchase, too.
- Upgrade purchases for just dollars per month.

1

ACCELERATE YOUR GROWTH

Growing your company is vital, and updating and expanding your equipment fleet is a key to that growth. A newer fleet means more uptime, less maintenance cost, and greater efficiency. A bigger fleet means more jobs at one time and more territory you can cover.

2

BUDGET YOUR ACQUISITIONS

Capital equipment purchases are some of the biggest expenses with which contractors must contend. Financing such acquisitions breaks down the costs and makes them easier to budget against the incremental revenue that equipment will produce.

3

FIT YOUR COMPANY CASH FLOW

Your company's revenue doesn't come in all at one time; you don't want to pay for equipment that way, either. We will work with you to fit payments to your cash flow, whether that means 90 days before your first payments, seasonal skips, or just equal monthly payments throughout the year.

4

EXPAND YOUR OPTIONS

Yes, you can afford to add that smooth shell to your SV544T or upgrade the SW884 to an ND with vibration and oscillation. Look at upgrades in terms of the additional monthly payment cost, not the total upfront cost, and compare that to your increased efficiency and revenue.

5

MAKE YOUR MONEY DO MORE FOR YOU

Rather than tying your cash up in 1 new piece of equipment, make it do more for you and your business. Be able to add or retain great employees, upgrade other machines or work trucks, or expand your marketing budget. Whatever you need to improve your business, put your free cash flow to that purpose.
