SAKAI Warranty Administration Effective October 1, 2019

SAKAI America, Inc. warrants new compaction equipment models SV, SW, TW, GW and R2 purchased from SAI inventory after September 30, 2019 subject to the following conditions:

Coverage begins with dealer registration at first retail use. A Warranty Registration Form is filed and the warranty begins as dated. With no contact from the dealer the warranty will begin six months after invoice date. An extension may be applied for through your SAKAI Regional Sales Manager or SAKAI Product Support.

*Coverage against defects in materials and workmanship of the **full machine** is in effect for three years or 3,000 hours, whichever occurs first.*

| | | | | |
|-----------|--------------|----------------|--------------------------|----------------------------------|
| Years 1-3 | Full Machine | Travel Expense | Ground Freight for Parts | Consumables Necessary For Repair |
|-----------|--------------|----------------|--------------------------|----------------------------------|

The engine is covered by this policy only after the manufacturer's warranty has expired (affects air control and emissions systems).

Parts are paid at dealer net. Shop and field labor rates are paid at 75%. Travel time is paid at the field rate, mileage at \$0.45 per mile. There is a 300-mile limit per claim.

Warranty for purchased SAKAI repair parts is six months from invoice date. The failed part may be required for inspection.

*Not covered, damage from transport or use, normal wear or maintenance.
